

KIERUTEC CLIMATE

KEIRUTEC GOOGLE NEST

A premium architectural enclosure designed for seamless integration of your Google Nest into any modern interior. Easily installed with basic drywall skills, delivering a clean, tailored fit and a refined flush finish that allows the thermostat to disappear into the wall.

The enclosure is also available for Ecobee, Daikin, Carrier, York, and Mitsubishi units.

01

Basic Installation

Easily installed using basic drywall tools. The nest thermostat securely clips into the mounting body and can be removed just as easily for maintenance or HVAC wiring accessibility.

02

Refined Wall Finish

Sits perfectly flush with the drywall surface. The precision-engineered enclosure creates a refined architectural shadow detail allowing your thermostat to blend nearly invisibly once installed.

03

Nest Compatibility

Designed for seamless fit with Google Nest thermostats. Preserves full sensor accuracy, display visibility, and control suitable for residential, commercial, and hospitality environments.
