Fixing	Secure Flush Mount
Sensor Coverage	Unobstructed Field of View
Compatibility	Custom-Made for any Sensor Brand / Size
Ceiling Type	All Ceiling Type (Drywall / Gypsum)
Color	White-Paintable Any Color

01 Basic Installation

Easily installed using basic drywall tools. Sensors securely mount into the internal housing, allowing quick accessibility and easy removal for maintenance, calibration, or writing.

02 Refined Wall Finish

Sits perfectly flush with the ceiling surface. The precision-engineered eclosure creates a refined architectural shadow detail, allowing your dom sensor to blend nearly invisibly once installed.

03 Universal Compatibility

Custom-built to your exact specifications to fit any dom sensor brand. Designed to maintain an unobstructed field of view for optimal detection. Ideal for residential, commercial, and hospitality spaces.
